EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on January 30, 2004, assigned serial 10/769,427 and titled "DUAL ARCHITECTURE MICROSERVER CARD".

2. The Response to Restriction Requirement filed on March 13, 2006 has been entered. Group II (claims 22-32) has been elected without traverse. Thus, claims 1-21 and 33-46 have been withdrawn as non-elected. After carefully reviewing the application in light of the prior art of record, the amended claims and additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the claims 23-32 are now in condition for allowance.

3. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

a. Although the prior art disclose several claimed limitations, none of the references teaches a gas turbine engine comprises a compressor section, a combustion section downstream of the compressor section, a turbine section downstream of the combustion section, a casing, and electronic controller mounted to the casing for controlling and monitoring operation of the engine, and a dual architecture card mounted in the electronic control box, wherein the dual architecture card including an opening architecture section and a closed architecture section and they includes a microserver (claim 22). Also, neither references teaches a closed loop control between the closed architecture section and other cards within the engine control box, wherein the closed architecture section receiving raw engine data from the other cards of the

engine control box, executing the engine specific algorithms based on the raw engine data, and transmitting control signals to the other cards of the electronic control box to modify operation of the gas turbine engine (claim 26).

b. Claims 22-32 are allowable over the prior art of record (now renumbered as 1-11).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Tan Nguyen, whose telephone number is (571) 272-6966. The examiner can normally be reached on Monday-Thursday from 5:30 AM-4:00 PM

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (571) 272-6956.
